

Making an Offset Doughnut Sculpture

With Neil Scobie

1. Turn the outside shape between Centres from both sides.

2. Offset and turn the shape from both sides, first on centres 2, then on Centres 3

3. Hot glue on the waste block on the narrow end. Prototype on the right.

4. Place in wood jaws and turn the inside from either side.

5. Paper glued bases after turning. You can turn two bases in one go.

6. Turn the sphere between centres, check with callipers
